SUMMARY

This signature event continues to evolve, and 2024 saw even more innovations in supporting presenters and creating a welcoming environment, all led by Winnie DuBois. One attendee shared, “Even though it was virtual it felt like I could engage with the presenter and other attendees.”

2024 Wins

- Once again, library staff value the practical content that can be put into action right away. Just one small, practical change can have a huge impact.
- Travel isn’t a barrier when learning is virtual. 22% of attendees and presenters came from outside Colorado, representing 22 states. “Seeing the amazing work that is happening in libraries around the United States and learning from the librarians themselves was incredibly insightful,” said one attendee.
- Support for presenters, including online engagement training, creates a dynamic learning experience. One presenter told us, “OMG you all are AMAZING!! I have never presented in an environment in which I had so much support and follow-up.”
- In collaboration with Colorado State Library, school library staff are now able to apply for professional development credit through CDE. Thanks, CSL!

2025 Goals

- Leverage existing robust support for presenters to increase the number of proposals and provide even more sessions to choose from in 2025
- Continue to bring in experts from a variety of fields, encompassing libraries and the world beyond
- Streamline use of the Zoom platform, making it easier to access the different rooms

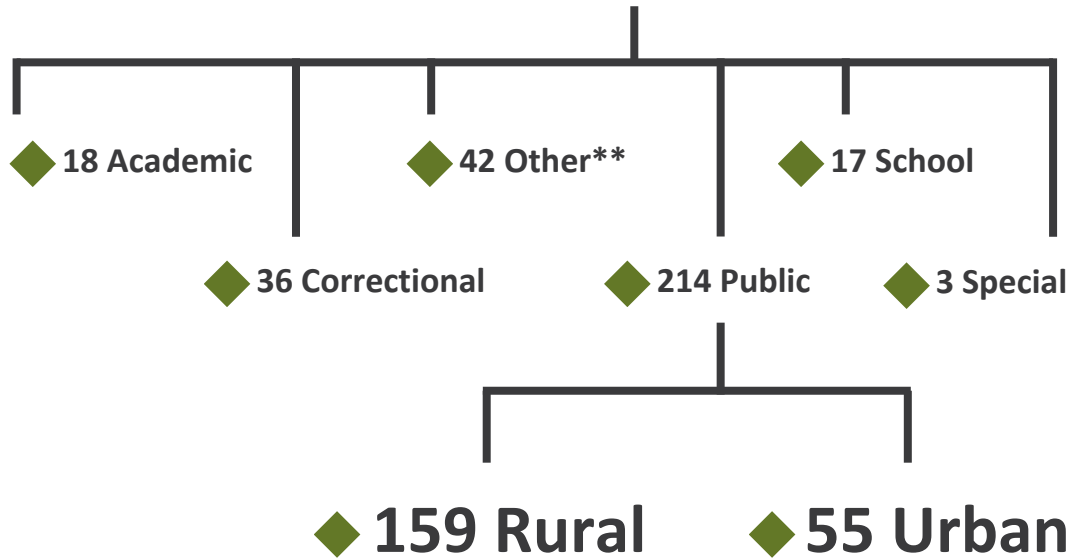

What energizes us at CLiC? Putting together this event and seeing all of you! One attendee’s comment is the perfect feel-good example, “I always look forward to this conference because it is so well organized and well represented by local and national speakers. Topics are diverse, relevant, and apply to libraries of all sizes.”

The entire CLiC Team is committed to bringing YOU practical and inspiring content. See you in 2025!

SATISFACTION

COMMENTS FROM ATTENDEES

"I came away with new ideas and feel that I've gained knowledge in several areas. The presentations were well-thought-out, engaging and fun."

-2024 Attendee

"This was my first with CO as I live in TX. Was wonderful information. Thanks for making this virtual and accessible to us all. Travel is too hard for my small library staff."

-2024 Attendee

"The presenters provided relevant information that I could use now."

-2024 Attendee

"Most of the workshops I attended broached mental health and morale. These are real and tough topics, and it's wonderful that they were addressed as being important. They have always existed, but I feel they have not been addressed, and these issues seem to have escalated in post-pandemic times. Thank you for putting so much effort into these particular topics. Lots of great information to take home!"

-2024 Attendee

"I did many sessions regarding book circulation and displays, I took a lot away from that and will be able to apply those small changes to help better serve some of my patrons."

-2024 Attendee

"It really felt good to be connected with other people who work in similar positions, since I am the only one in this school doing what I do."

-2024 Attendee

"I always look forward to this conference because it is so well organized and well represented by local and national speakers. Topics are diverse, relevant, and apply to libraries of all sizes."
